

A close-up photograph of a red paint roller with a yellow handle, applying a thick coat of red paint to a white surface. The roller is positioned horizontally, and the paint is being applied in a smooth, even stroke. The background is a solid white surface, and the red paint is being applied to a corner or edge of the wall.

DECART®

Turkey's Leading Manufacturer
of Quality Paint Applicators

A History of Quality & Excellence

DECART is a brand of HUNTER LTD., a leading manufacturer of woven high pile technical fabrics for paint applicators and flat mops, since 1951. The production plant is located in the industrial area of Taskopru, Yalova, Turkey.

With a history of craftsmanship and commitment to innovative product development, DECART has become the world's leading source for paint applicators. Our extensive textile production and merchandising support allows us to offer effective programs and products for worldwide.

Everything from one source:

All production steps take place in self-owned factory of HUNTER LTD. Starting from the yarn production over the weaving and sewing process to further processing of the microfiber, lambskin and polyester foam products, all manufacturing processes are controlled and monitored by production specialists. That's how you get innovative products, highly flexible design options as well as an optimal price/performance rate.

Individual design:

Create your own individual paint rollers: Fabric design, color coding, pile height and many other technical changes... With us, you can determine the production of your perfect paint rollers, even with a Private Label of your own.

Ecosatin

Woven Microfiber Fabric

For use on flat surfaces with satin and water-based paints. Chemical resistant polypropilen core. Lint free. Successfully covers the tiny bumps on the walls. Washing the roll with any solvent after using and rinsing with water prolongs the service life.

Private Label

We can manufacture your own designs under your own label!

Outsourcing production is the best solution for you to get paint rollers with your own brand. Most of known brands are using Private Label Services to avoid from high costs.

DECART will lead you through the entire process: We are able to custom-formulate the paint rollers as per given instructions and ideas. Furthermore, we will share our experience and assist you for making a decision on fabric selection, colors and new trends in the market. We provide all necessary information, manufacturing and shipment to any desired destination.

DECART is here at your disposal for new projects worldwide!
